EDUCATION

Master of Computer Applications
Thapar Institute of Engineering and Technology

Patiala, Punjab
August 2022 - June 2024

Bachelor of Information Technology
RIMT University

Mandi Gobindgarh, Punjab
August 2019 – May 2022

EXPERIENCE

Mlytics Life Sciences, US | Data Scientist Full-Time (Remote) **July 2024 – Present**

- * Architected and maintained modular Python-based backend systems for high-volume data pipelines.
- * Designed and developed scalable REST APIs to serve structured data to frontend applications.
- * Implemented authentication, validation, and structured JSON response handling.
- * Integrated third-party APIs and automation tools to ensure seamless interoperability.
- * Optimized backend workflows and improved performance through efficient query design and debugging.
- * Maintained clean, reusable, and production-ready code following best practices.

Mlytics Life Sciences, US | Data Scientist Intern(Remote) **Feb 2024 – May 2024**

- * Developed and maintained Django-based backend applications using Django ORM.
- * Built secure RESTful APIs using Django REST Framework.
- * Integrated external APIs and third-party services.
- * Debugged and optimized existing codebases for improved reliability and security.
- * Collaborated with cross-functional teams and communicated daily progress and blockers.

PROJECTS

CNN Text Classifier | Deep Learning, NLP, Deployment

- Built CNN-based text classification model using TensorFlow and Keras.
- Developed an end-to-end NLP pipeline for preprocessing and inference.
- Deployed an interactive web application using Streamlit.

Live: <https://cnn-text-classifier-nhxzqdbvkzrqzyp5amuxx.streamlit.app/>

GitHub: <https://github.com/Muskan29mm/CNN-text-Classifier>

Skin Cancer Detection System | TensorFlow, CNN, Microsoft Azure, Streamlit

- Built CNN model achieving 88% accuracy for skin lesion classification and deployed as live web app on Azure

Live: <http://skin-streamlit-app2-cahtfkd3epa4d9fp.centralindia-01.azurewebsites.net/>

GitHub: <https://github.com/Muskan29mm/Skin-Cancer-Detection-System-using-CNN->

SKILLS AND TECHNOLOGIES

Backend Development: Django (Models, Views, ORM, Templates), Django REST Framework, RESTful APIs, MVC Architecture

Databases: PostgreSQL, MySQL, Advanced SQL, Query Optimization

API & Integrations: Third-Party API Integration, Payment Gateway Integration, JSON Processing

Programming: Python

Tools & Platforms: Git, GitHub, CI/CD Concepts, Debugging & Performance Tuning

AI Coding Tools: ChatGPT, Claude, GitHub Copilot, Cursor, Kimi
